

Ravindra Kumar

Full Stack AI & RAG Engineer | Python Developer

Email: ravindra@example.com | GitHub: github.com/ravindra | LinkedIn: linkedin.com/in/ravindra

SUMMARY:

Passionate AI Engineer specializing in Retrieval-Augmented Generation (RAG), vector similarity search, and full-stack web applications.

TECHNICAL SKILLS:

Programming: Python, Java, C++, JavaScript, SQL

AI/ML & RAG: FAISS, BM25, PyMuPDF, SentenceTransformers, FastAPI, Next.js

Databases & Tools: PostgreSQL, MongoDB, Docker, Git

PROJECTS:

1. MyNotes RAG Assistant:

Developed an end-to-end PDF RAG system with PyMuPDF page-aware text extraction, FAISS vector search, and BM25 hybrid reranking. Integrated multiple LLM providers (Groq, OpenRouter, NVIDIA, Gemini) with automated failover.

2. Distributed Microservices Backend:

Engineered asynchronous FastAPI microservices with Docker containerization and PostgreSQL indexing.

EDUCATION:

Bachelor of Technology in Computer Science & Engineering (2021 - 2025)

CERTIFICATIONS:

Deep Learning & RAG Specialization - Coursera
